# Tidel Sentinel Closing the Loop on Cash Management

# Cash Management Software

## Cash Management Software

Tidel's Sentinel cash management software is a Windows based software that provides secure, 2-way communication between a Sentinel, POS and back office reporting systems. Tidel's software automates End of Day closeouts and cash reconciliation, freeing a manager's time through the elimination of cash shrinkage and providing full accountability and effectively closing the cash management loop.

Various features of Tidel's cash management software include:

- Language localization
- Worldwide currency support
- Three levels of security
- Flexible policy settings
- CIT user screens
- Buying change
- Custom reporting

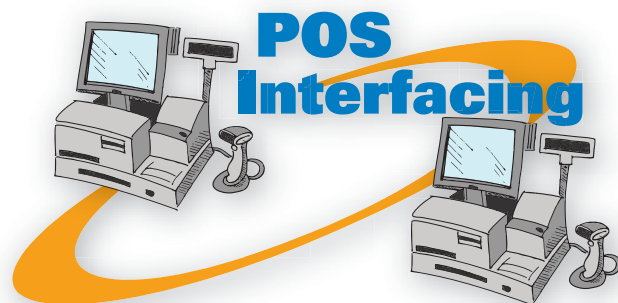

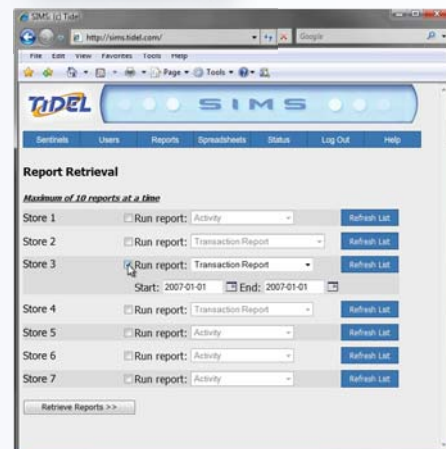

## SIMS – Sentinel Information Management System

SIMS is a unique data gathering tool that offers report generation and diagnostic testing. With SIMS, users are able to remotely retrieve various reports in real-time, such as activity reports, current content reports and system status reports. SIMS also allows for custom grouping of stores and the ability to download multiple store data into one common spreadsheet.

Various features of SIMS include:

- Remote cash management software updates
- Remote updates to note validators
- Remote diagnostics and system policy status
- Real-time remote reporting
- Access to previously generated reports
- Import into external spreadsheets
- Custom report development tool
- Report scheduling

## SIMS

## POS Interfacing

Eliminating cash shrinkage is fully possible today simply by incorporating a cash management system that is integrated into the store's POS system at the transaction level. With retailers reporting cash shrinkage anywhere from 0.5% - 3.0% of sales annually, all retail operators would benefit by installing a Tidel integrated Sentinel cash controller in their stores as part of their strategic operating plan.

Various features of Tidel's POS interface software include:

- Interface to the POS at the transaction level
- Track every drop transaction into the safe
- Update the POS on every bank loan transaction
- Meets XML and PCATS standards
- Windows CE platform

Combining Tidel's SIMS and POS interfacing capabilities provides the most complete cash management solution anywhere.
